(6:07:35) – Mr. Rowe presented the small business impact statement, incorporated into the record, and the responses he had received. Mr. Tackes suggested taking public comments on the proposed fee and incorporate them into the impact statement, noting that the Authority would vote twice on this item. The first vote would take place in this meeting, and the second time the members would vote in the February meeting. He also explained the analysis methodology, incorporated into the record. Mr. Rowe stated that lost cards will be replaced for a \$25 non-refundable fee and clarified that Airport leases did not specify no-cost gate cards. Member White suggested specifying that the fees would be used strictly for gate and fence expenditures. Mr. Tackes suggested citing Member White’s request in the upcoming motion.

(6:21:43) – Public Comments: Dirk Zahtilla requested postponing the vote on this item as he had not received detail he had requested on the repair costs and bid information on gate replacement. Mr. Rowe noted that Mr. Zahtilla had received the same information provided to Authority members in November. Mr. Zahtilla expressed his concern on the high cost of gate replacement and gate cards, calling it a tax, and questioned whether the Airport would be accessible to the public at all times. Vice Chairperson Hutter clarified that the \$410,000 ACIP expenditures were projections and were for replacement of gates and the fences around the airport perimeter in a few years.

(6:51:12) – **Motion: To adopt the \$10 per year renewal fee for gate access cards with the stipulation that it is used only for gate maintenance and for future ACIP matching funds.**

Member White suggested sending a formal letter to the NNDA. Carport-style enclosures, solar panels, and other energy options were also discussed.

No action was taken on this agenda item.

I. AIRPORT MANAGER’S REPORT (7:39:58) –Mr. Rowe explained that a Cessna 180 accident caused the closure of a runway for five hours on December 22, 2013. As a result, he had arranged with a crane operator to be called immediately in future incidents. He also notified the Authority of a “near miss” on January 2, 2014 which had resulted in planning a safety seminar by the FAA. Mr. Rowe noted that six coyotes were trapped and removed from the Airport. Member White suggested contacting local towing companies as well for aircraft removal.

J. LEGAL COUNSEL’S REPORT (7:48:52) – Mr. Tackes explained that because of the “straight-in” approach the safety seminar was important to make pilots more aware. He also believed that the Airport received all personal property taxes on the aircraft and the real property taxes derived from the hangars. Mr. Tackes also clarified the restrictions for public use of the Airport for safety reasons.
