

FlyCarsonCity.com

The Carson City Airport Authority is hosting a social gathering of *airport users and tenants at the Mountain West Aviation Hangar (2101 Arrowhead Dr) on February 24, 2021 at 5:30pm. COVID limitations will be acknowledged.*

Airport Authority Members will be available to discuss any topic our patrons care to bring up, including a review of our response to the MU2 runway excursion on January 9/10th and the airport snow removal plan. We will also introduce Airport Operations and Maintenance Technician Rick Lee. Although a quorum of Airport Authority members may be in attendance, no deliberations will take place, nor will there be any votes taken.

We will also recognize the passing of long-time airport tenant, Sheriff's Aero Squadron and EAA member George Clary, as well as EAA member Mark Lund and Aero Squadron member Hal Richardson.

A light fare will be served for dinner accompanied by refreshments and dessert. We very much look forward to the opportunity of meeting with everyone in this setting. Please mark your calendars accordingly, and please RSVP to the email address below so that we may plan for seating, food, and refreshments.

Best Regards,

*Ken Moen
Airport Manager
